BOIL WATER ORDER FOR WARNER SPRINGS UNIFIED SCHOOL *Test Results Show Bacteria Present in Drinking Water Supply*

The County of San Diego Department of Environmental Health (DEH) has issued a Boil Water Order for the Warner Springs Unified School, effective immediately. A water sample collected on July 11 confirmed the presence of total coliform bacteria in the water supply for Warner Springs Unified School. *E. Coli* bacteria was absent in the sample. Total coliform bacteria can come from soils and other sources in the environment, and can indicate a problem with the water supply system. The Boil Water Order was issued to the school to ensure all water used by the school is free from contamination. The boil water order will remain in effect until the distribution system has been disinfected and additional samples confirm the absence of bacteria in the water supply.

For more information on the Boil Water Order, please call the Warner Springs Unified School at 760-782-3517.
